Mid-Project Report and Checklist

Name:	Daniel Sanchez-Rosales
Date:	11/14/2019
Project Title:	Identifying Metastatic Tissue in Histopathologic Scans of Lymph Node Sections Using Neural Networks

Yes	No	Date Complete	Task
XXXXXX		11/12/2019	Data has been transferred to the appropriate computing platform (OSC/research group/personal laptop).
			If not complete explain:
XXXXXXX		11/12/2019	Background research has been completed (and section for poster summerizing this is done).
			If not complete explain:
XXXXX		11/13/2019	Preliminary visualization of data have been performed. Jupyter notebook available in project folder
			If not complete explain:
XXXXXX		11/05/2019	Timeline for attaining remaining project goals has been sketched out. Text doc available in project folder.
			If not complete explain:
XXXXX		11/14/2019	Project poster has been started. Version available in project folder.
			If not complete explain:
	XXXXXX		Initial/test model has been chosen and initial pass with this model has been attempted.
			If not complete explain: I AM STILL TRYING TO IMPORT MY LARGE DATA SET TO PYTHON
